500TM

Technology Fast 500

2024 NORTH AMERICA

30 YEARS OF INNOVATION

Deloitte.

AscellaHealth Ranked Number 154 Fastest-Growing Company in North America on the 2024 Deloitte Technology Fast 500TM

Attributes 753% Revenue Growth to Advancing Innovative Solutions for Life Sciences, Healthcare Organizations, Payers and Patients

Berwyn, PA – November 21, 2024 – AscellaHealth, a global partner delivering customizable solutions to support the specialty pharmaceutical industry, today announced it ranked number 154 on the Deloitte Technology Fast 500TM, a ranking of the 500 fastest-growing technology, media, telecommunications, life sciences, fintech, and energy tech companies in North America, now in its 30th year. AscellaHealth grew 753% during this period.

AscellaHealth's CEO, Dea Belazi, credits the revenue growth to the Company's unwavering focus on advancing patient-centered care and its ongoing commitment to developing innovative, comprehensive solutions for the global life sciences and healthcare sectors.

Bill Oldham, chairman and president of AscellaHealth, says, "This recognition underscores our role as a trusted partner to global manufacturers who depend on our expertise to support the development and commercialization of specialty pharmaceuticals and novel cell and gene therapies for individuals with rare and chronic conditions. Our exceptional growth is driven by recent acquisitions, an expanded client portfolio and enhanced capabilities to serve international manufacturers and patients in over 70 countries across the EU, Asia, Africa, Australia and the Americas."

Oldham adds, "As we continue to solidify our global market leadership, our team is unlocking new opportunities for market access and product commercialization. Looking ahead, we anticipate sustained market growth and the further deployment of our industry-leading patient support programs that enhance clinical outcomes while meeting the needs of patients, providers and payers alike."

“For 30 years we’ve been celebrating companies that are actively driving innovation. The software industry continues to be a beacon of growth, and the fintech industry made a strong showing on this year’s list, surpassing life sciences for the first time,” said Steve Fineberg, vice chair, U.S. technology sector leader, Deloitte. “Significantly, we also saw a breakthrough in performance of private companies, with the highest number of private companies named to the list in our program’s history. This year’s winners have shown they have the vision and expertise to continue to perform at a high level, and that deserves to be celebrated.”

“Innovation, transformation and disruption of the status quo are at the forefront for this year’s Technology Fast 500 list, and there’s no better way to celebrate 30 years of program history,” said Christie Simons, partner, Deloitte & Touche LLP and industry leader for technology, media and telecommunications within Deloitte’s Audit & Assurance practice. “This year’s winning companies have demonstrated a continuous commitment to growth and remarkable consistency in driving forward progress. We extend our congratulations to all of this year’s winners — it’s an incredible time for innovation.”

AscellaHealth previously ranked 231 as a Technology Fast 500 award winner in 2023, 238 in 2022 and 299 in 2021.

About the 2024 Deloitte Technology Fast 500

Now in its 30th year, the Deloitte Technology Fast 500 provides a ranking of the fastest-growing technology, media, telecommunications, life sciences, fintech, and energy tech companies — both public and private — in North America. Technology Fast 500 award winners are selected based on percentage fiscal year revenue growth from 2020 to 2023.

In order to be eligible for Technology Fast 500 recognition, companies must own proprietary intellectual property or technology that is sold to customers in products that contribute to a majority of the company’s operating revenues. Companies must have base-year operating revenues of at least US\$50,000, and current-year operating revenues of at least US\$5 million. Additionally, companies must be in business for a minimum of four years and be headquartered within North America.
