Wake Forest University School of Medicine is the academic core of Atrium Health.

QUALITY DELIVERY

91%	Patient retention rate
19.3%	Screen failure rate
99%	SAEs reported within 24 hrs

DIVERSITY

33%	Available patients are URM*
15%	Javara investigators are URM
27%	Javara staff are URM

*underrepresented minorities

EFFICIENCIES FOR STUDY ACCELERATION

- Identified patients from behind-the-firewall EHR access
- Clinical decision tools surface patient match alerts to providers as part of their clinical workflow
- Access to Javara medical director for protocol review and feedback in real-world settings
- Accelerated start-up with one contract template and one per-patient budget
- Master CTAs and budgets
- Centralized resources: Training, Quality, Operational Strategy, Study Start-Up, Project Management
- Industry leading feasibility and recruiting technologies to minimize screenfails
- Standardized eClinical Solutions for regulatory, data collection and internal monitoring
- Training and development supported by Standard Operating Procedures

**A healthcare organization is defined by a purposefully designed, structured social system developed for the delivery of health care services by specialized workforces to defined communities, populations, or markets.*
