# COVID-19 Positive Patients Needed!

Kephera Diagnostics is seeking volunteers who tested positive for COVID-19, who are willing to donate a small amount of blood from a finger prick done by yourself at

home.

Kephera is developing a new antibody test for COVID-19 diagnosis. We are seeking volunteers who have tested positive for COVID-19 to help us develop this new test.

## REQUIREMENTS TO BE A VOLUNTEER

- ✓ Must be at least 18 years of age
- ✓ Must be confirmed positive for COVID-19 by standard PCR test (done on a nasal/throat swab).

If you are interested, please contact us for more information:

Phone: **774-421-9611**

Email : **[volunteer@kephera.com](mailto:volunteer@kephera.com)**

If you qualify, a blood collection kit will be sent to you.

- Your name and personal information will not be shared with anyone other than the study coordinator who enrolls you.
- This blood collection kit is provided at no cost to you.
- The kit contains commercially available blood collection materials, and instructions to collect and ship back your blood sample.
- You will collect 4-6 drops of blood from a finger prick.
- You will send back the collected blood in an included pre-paid shipper.
- Test results are only for use in test development and will not be shared with you.
- You will not be paid for your blood, but your participation will help develop urgently needed tests for COVID-19.

Thank you for your interest in volunteering for this study.

As a volunteer blood sample donor, you are making an important contribution that will bring us closer to the development of a sensitive and specific COVID-19 antibody test.
