Pharma Manufacturing announces the 2022 Pharma Innovation Award winners

NASHVILLE, TN Oct. 7, 2022 -- Pharma Manufacturing, an Endeavor Business Media brand, is proud to unveil this year's Pharma Innovation Award winners. Business Media brand, is proud to unveil this year's Pharma Innovation Award winners.

The Pharma Innovation Awards are an annual celebration of new technologies and services that help advance product quality, risk reduction and manufacturing efficiency.

Here at Pharma Manufacturing, we understand and appreciate the investment pharma equipment vendors put into developing and improving their products. It's these valuable tools that help pharmaceutical companies to develop innovative, lifesaving medicines. The Pharma Innovation Awards are a tribute to those who listen to the needs of the market and their customers, and a result, have distinguished themselves as leaders in pharma equipment and technology.

This year's winners consist of 17 products and technologies chosen by editors and industry reviewers. The awards will be covered in detail in Pharma Manufacturing's November issue.
