

Research & Development/Clinical Stage

Unlock your GROWTH potential

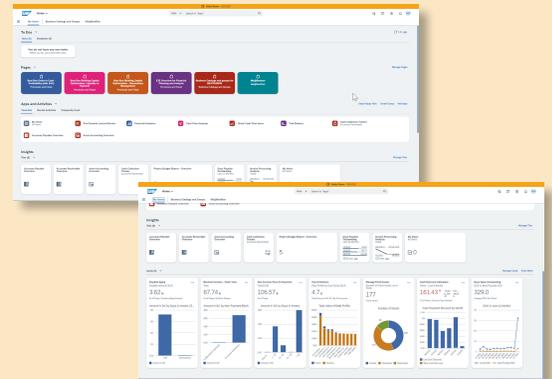

R&D/Clinical Stage companies need to keep their focus on the science.

These unique Life Science companies have long lead times between investments and commercialization, leading to unpredictable revenue streams and cash flow gaps. R&D costs can be a major drain on resources, requiring careful tracking and allocation. R&D companies often experience rapid growth and need adaptable systems that can scale quickly.

Get to know: Navigator R&D/Clinical Stage Industry Package Solution

SAP S/4HANA Cloud, Public Edition is targeted at R&D and Clinical Stage Life Science organizations that don't yet require GxP operations. This is not a lite version, this is the real deal, a configuration to get your company up and running on a tier-1 SAP system, quickly meeting your core needs, all for a surprising starting price.

- **Improved visibility and control over finances:** Real-time insights into financial performance and budget adherence.
- **Enhanced collaboration and communication:** Streamlined workflows and data sharing across departments.
- **Reduced administrative burden:** Automation of outline tasks and simplified reporting processes.
- **Managing and tracking** clinical trial materials, such as investigational drugs and medical devices, requires strict adherence to regulations and precise inventory control.

With SAP S/4HANA Cloud, public edition Life Sciences organizations are able to establish a foundation of processes and controls that help them better run their business today and grow into the next phase of their business evolution.
