AUSTIN, Texas, Sept. 22, 2020 /PRNewswire/ -- L7 Informatics, a leader in life sciences workflow and data management, announced today that the Company will deploy its software platform, Enterprise Science Platform or ESP, in QIAGEN's Genomics Service Labs. Following the installation of ESP, additional development projects are planned to further enhance Sample to Insight workflows across QIAGEN's research and diagnostics portfolios.

ESP fosters digitization, automation, collaboration and expedites genomics research by building an integrated platform to manage scientific knowledge, processes and data in one place, yielding better access to information and faster discoveries. ESP automates sample management, bio-repository management, lab data collection & analysis, data visualization, integration to all instruments and bar code scanning. The ESP platform provides out of the box apps including ELN, LIMS, inventory, assets, location, analysis, data, projects, dashboards, and reports.

Vasu Rangadass, CEO at L7 Informatics added, "Our goal at L7 is to enable precision health and we are delighted to partner with QIAGEN, a global leader in molecular solutions, to help researchers achieve new data insights through the automation of laboratory workflows and data management."

L7 Informatics was named as a Cool Vendor in Gartner's May 2020 Cool Vendors in Life Sciences.

Gartner, "Cool Vendors in Life Sciences", Michael Shanler, Jeff Smith, Animesh Gandhi, Seth Feder, 27 May 2020.
